The round metal gong of the Cordillera known locally as **gong** is a symbol of the upland people's culture that has been passed on from generations to another.

The profile of a person blowing a "tungguyub" represents a community being called for an important matter or action.

The lines that shape the mountains, the rice terraces, clouds and rivers symbolize the connectivity and flow of human interaction in a geographic area such as the Cordillera.

All the symbols combined represent unity and harmony of its people with culture and environment in beating the gong for self-determination.
