The round metal gong of the Cordillera known locally as "*gangsá*" is a symbol of the upland people's culture that has been passed on from generations to another.
 The profile of a person blowing a "*kongguyub*" represents a community being called for an important matter or action.
 The lines that shape the mountains, the rice terraces, clouds and rivers symbolize the connectivity and flow of human interaction in a geographical area such as the Cordillera.
 All the symbols combined represent unity and harmony of its people with culture and environment in beating the gong for Self-determination.
